

# **Trainings 2013-14**

## PROPOSED TRAINING PROGRAMMES

S.No.	Title	Type	Participants
1	Method of Soil Sampling	Farmers	30
2	Vermi compost production technology	Rural Youths	30
3	Importance of micro nutrient in Kharif crops	Farmers	30
4	Balance fertilizer application	Farmers	30
5	INM in Rice	Farmers	30
6	INM in Maize	Farmers	30
7	Importance of micro nutrients in Rabi crops	Farmers	30
8	Importance of soil testing	Farmers	30
9	INM on Wheat	Farmers	30
10	Importance of Bio fertilizers	Farmers	30
11	INM on Pulses	Farmers	30
12	Soil solarization Technique for weed control in brinjal and tomato	Farmers	30
13	Production technology of hybrid rice	Rural Youths	30
14	Integrated weed management in rice	Farmers	30
15	IWM in pigeon pea, urd and moong	Farmers	30
16	Scientific production technology of ground nut	Farmers	30
17	Wormi composting, how and why?	Farmers	30
18	Scientific cultivation technique of hybrid maize	Farmers	30
19	Nursery management in rice through SRI technique	Farmers	30
20	Production technology of sugercane	Farmers	30
21	Integrated nutrient management in sesamum	Farmers	30
22	Production technology of toria and mustard	Farmers	30
23	Integrated nutrient management in wheat	Farmers	30
24	Integrated weed management in wheat	Rural Youths	30
25	Nutrient management in chickpea	Farmers	30
26	INM in linseed	Farmers	30
27	Care of poultry birds in summer months	Farmers	30
28	Vaccination for dairy animals	Farmers	30
29	Summer management and feeding of Livestocks	Farmers	30
30	Prevention and control of endo and ecto-parasites in dairy animals	Farmers	30
31	Goat Farming	Farmers	30
32	Important diseases of dairy animals and their preventive measures	Farmers	30
33	Poultry farming	Farmers	30
34	Goat Farming	Farmers	30
35	Importance of artificial insemination in breed improvement in animals	Rural Youths	30
36	Poultry Farming	Farmers	30
37	Goat Farming	Farmers	30
38	Feeding management & cold stress management in poultry	Farmers	30
39	Prevention and control of diseases in animals	Farmers	30
40	Poultry farming	Farmers	30
41	Control of Endo and Ecto parasites in dairy animals	Farmers	30

	and poultry birds		
42	Vegetative propagation techniques in fruit plants viz. Mango and Litchi	Rural Youths	30
43	Production technology of hybrid maize	State Govt. official	30
44	Production technology of rice	State Govt. official	30
45	Production technology of moong and urd	State Govt. official	30
46	Production technology of wheat	State Govt. official	30
47	Production technology of pulses	State Govt. official	30
48	Nutrient management based on STCR	State Govt. official	30
49	IPM in Kharif crops	State Govt. official	30
50	IPM in Rabi crops	State Govt. official	30
51	Improved technology of nursery raising	Farmers	30
52	Production technology of off season tomato	Farmers	30
53	Improved production technology of fruit crops	Farmers	30
54	Improved production technology of brinjal	Farmers	30
55	Use of micro nutrient in vegetable crops	Farmers	30
56	Improved production technology of sweet potato	Farmers	30
57	Improved production technology of potato	Farmers	30
58	Improved production technology of cole crops	Farmers	30
59	Fruit and vegetable preservation	Farmers	30
60	Use of polythene in horticultural crops	Farmers	30
61	Training on protection of frost	Farmers	30
62	Training on drip irrigation on vegetable crops	Farmers	30
63	Training on low cost poly house	Farmers	30
64	Improved production technology of bakla	Farmers	30
66	Improved production technology of pear	Farmers	30
67	Training on zero energy cool chamber	Farmers	30
68	Training/ pruning on Palash host tree for lac cultivation	Farmers	30
69	Summer ploughing	Farmers	30
70	Seed and transplanting material treatment in Kharif crops	Farmers	30
71	IPM in Kharif crops	Farmers	30
72	Cultivation of mushroom	Farmers	30
73	DIM in	Farmers	30
74	IPM in Kharif oilseed crops	Farmers	30
75	IDM in Kharif oilseed crops	Farmers	30
76	IPM in Kharif pulses	Farmers	30
77	IDM in Kharif pulses	Farmers	30
78	Lac cultivation	Farmers	30
79	IPM in rabi crops	Farmers	30
80	IDM in rabi crops	Farmers	30
